Directions:

Be sure to ask your parents for help first before beginning this project.

- Prepare your paper to place your footprint on.
- Brush brown paint on the bottom of your right or left foot.
- Place your foot onto an 8.5 x 11 paper or larger to create your footprint.
Note: You may have to try it multi-times to get the right print. Make sure to use one footprint per sheet.
- Once you are happy with your print, let the wet paint dry.
- Once your footprint is dry, it's time to make the reindeer face. Draw the antlers, glue the eyes, and the pom-pom nose!
- Once dry, cut out your footprint reindeer. Make sure you know what size you want to make your footprint card so you cut your paper correctly.
- Now you can paste the footprint card onto a larger red or green card stock to make your card!
